

Anti-Human Creatine Kinase-MM [MAK33] Bulk size

[View Online](#)

Description: Recombinant monoclonal antibody to Human Creatine Kinase-MM. Manufactured using AbAb's Recombinant Platform with variable regions (i.e. specificity) from the hybridoma MAK33. This antibody is in our proprietary AbFab2™ recombinant F(ab2) format - based on Human IgG1 sequence with a short dimerization domain to improve stability and a his tag.

Isotype and Format: Human F(ab)2, AbFab2™ His-Tagged, kappa

Clone Number: MAK33

UniProt Accession Number of Target Protein:

Published Application(s): ELISA

Published Species Reactivity: Human

Immunogen: Human creatine-kinase-MM in Al(OH)3.

Specificity: The antibody binds specifically to the human creatine-kinase-MM subtype (and not the the MB or BB subtype).

Antibody First Published in:

Buckel et al. Gene 1987; 51:13-19 [PMID:3110009](#) **Note on publication:** Describes the generation of a monoclonal antibody directed against the human creatine kinase M-subunit.

Product Form

This is a Bulk size product. Purified antibody in bulk size.

Purification: Purified by Immobilized Metal Affinity Chromatography

Supplied in: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: See vial label

Product Code: Ab00395-10.7-BT

Human F(ab)2

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
