

Anti-CD4 epitope A [YTS 177.9] Bulk size

[View Online](#)

Description: Recombinant monoclonal antibody to CD4 epitope A. Manufactured using AbAb's Recombinant Platform with variable regions (i.e. specificity) from the hybridoma YTS 177.9.

Isotype and Format: Rabbit IgG, kappa

Clone Number: YTS 177.9

UniProt Accession Number of Target Protein:

Published Application(s): FC; IHC

Published Species Reactivity: Mouse

Immunogen: Mouse spleen cells.

Specificity: Recognises CD4, a MHC type II antigen expressed by most T helper cells and normal thymocytes commonly found in human lymph nodes and tonsils.

Antibody First Published in:

Nabozny GH et al. Cell Immunol. 1991 Nov;138(1):185-96 [PMID:1680568](#)

Product Form

This is a Bulk size product. Purified antibody in bulk size.

Purification: Protein A affinity purified

Supplied in: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: See vial label

Product Code: Ab00205-23.0-BT

Rabbit IgG

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
