

## Anti-Influenza A HA [FLD21] Bulk Size Ab00250-10.0-BT

Recombinant monoclonal antibody to Influenza A HA. Manufactured using AbAb's Recombinant Platform with variable regions (i.e. specificity) from the EBV transformed human B cell clone FLD21.

**Isotype and Format:** Human IgG1, Lambda

**Clone Number:** FLD21

**Alternative Name(s) of Target:** haemagglutinin; hemagglutinin

**UniProt Accession Number of Target Protein:**

**Published Application(s):** NTRL

**Published Species Reactivity:** H5N1 Influenza A Virus

**Immunogen:** Made by immortalizing IgG-expressing B cells from patients who had recovered from infections with HPAI H5N1 Viruses.

**Specificity:** This clone can neutralize the hemagglutinin (HA) of a H5N1 strain of influenza A Virus.

**Application Notes:**

**Antibody First Published in:** Simmons et al. Prophylactic and therapeutic efficacy of human monoclonal antibodies against H5N1 influenza. PLoS Med. 2007 May;4(5):e178. [PMID:17535101](#)

**Note on publication:**

### Product Form

**Size:** 1 mg Purified antibody in bulk size.

**Purification:** Protein A affinity purified

**Supplied In:** PBS only.

**Storage Recommendation:** Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg /ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
