

Anti-UBE2I [SAIC-36A-9] Standard Size Ab00329-1.1

Recombinant monoclonal antibody to UBE2I. Manufactured using AbAb's Recombinant Platform with variable regions (i.e. specificity) from the B-cell cDNA library SAIC-36A-9.

Isotype and Format: Mouse IgG1, Kappa

Clone Number: SAIC-36A-9

Alternative Name(s) of Target: SUMO-conjugating enzyme UBC9, UBC9, UBCE9

UniProt Accession Number of Target Protein: P63279

Published Application(s): immunoMRM, WB, ELISA

Published Species Reactivity: Human

Immunogen: Peptide "GLFIIDGK", derived from the SUMO-conjugating enzyme UBC9, conjugated to KLH.

Specificity: Recognises human UBE2I.

Application Notes: Original data characterizing this antibody may be found [here](#).

Antibody First Published in: Schoenherr et al. Anti-peptide monoclonal antibodies generated for immuno-multiple reaction monitoring-mass spectrometry assays have a high probability of supporting Western blot and ELISA. Mol Cell Proteomics [PMID:25512614](#)

Note on publication: Describes generation a panel of recombinant antibodies using synthetic peptides of human proteins as well as validation using ELISA and multiple reaction monitoring-mass spectrometry.

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
