

## Anti-His tag (C-term) [3D5] Standard Size Ab00101-3.0

**Isotype and Format:** Mouse IgG2b, Kappa

**Clone Number:** 3D5

**Alternative Name(s) of Target:** polyhistidine tag

**UniProt Accession Number of Target Protein:** n/a

**Published Application(s):** FACS, WB, ELISA, FC

**Published Species Reactivity:** n/a

**Immunogen:** Purified his tagged Fab fragment.

**Specificity:** This antibody binds to carboxy-terminal oligo-histidine tags (6x His tags) of fusion proteins. It also has affinity for internal His-tags but no affinity for N-terminal His-tags.

**Application Notes:** This antibody was successfully used for ELISA, WB, and FACS. Monomeric and dimeric scFv versions of the antibody were generated and described (Lindner et al., 1997; PMID: 8994661). The scFv version of this antibody was engineered into a lentiviral vector system to confer specificity for cells displaying the His tag on their surface, enabling targeted gene transfer into HT1080-anti-His cells (Friedel et al., 2015; PMID: 25715658). This antibody was used in FC to detect Canine IL-17A in Canine IL-17A-transfected HEK293 A cells (Akiyama et al., 2019; PMID: 30885301).

**Antibody First Published in:** Lindner P, Bauer K, Krebber A, Nieba L, Kremmer E, Krebber C, Honegger A, Klinger B, Mocikat R, Plückthun A. Specific detection of his-tagged proteins with recombinant anti-His tag scFv-phosphatase or scFv-phage fusions. *Biotechniques*. 1997 Jan;22(1):140-9. [PMID:8994661](#)

**Note on publication:** Describes the making of the antibody, shows it recognised carboxy-terminal oligo-histidine tags (His tags) of a wide variety of proteins in immuno-assays of cell lines with His tag amplifications.

## Product Form

**Size:** 200 µg Purified antibody.

**Purification:** Protein A affinity purified

**Supplied In:** PBS with 0.02% Proclin 300.

**Storage Recommendation:** Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
