

Anti-V5 epitope tag [SV5-P-K] Bulk size M Ab00136-10.7-BS

This antibody is in our proprietary AbFab2™ recombinant F(ab2) format - based on Human IgG1 sequence with a short dimerization domain to improve stability and a his tag.

This chimeric human antibody was made using the variable domain sequences of the original Mouse IgG1 format, for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Human F(ab)2, AbFab2™ His-Tagged, Kappa

Clone Number: SV5-P-K

Alternative Name(s) of Target: GKIPNPLLGLDST tag; Regulator of expression of viral proteins; protein rev; V5 epitope tag; GKIPNPLLGLDST epitope tag; PK tag; PK-tag

UniProt Accession Number of Target Protein: n/a

Published Application(s): IP, RIA, WB, ELISA, IF, IHC-Fr

Published Species Reactivity: Paramyxovirus Simian Virus 5

Immunogen: Pk (V5) Epitope Tag (GKIPNPLLGLDST).

Specificity: Recognises a 14 amino acid sequence (GKIPNPLLGLDST) derived from the P and V proteins of the paramyxovirus simian virus 5.

Application Notes:

Antibody First Published in: Randall RE, Young DF, Goswami KK, Russell WC. Isolation and characterization of monoclonal antibodies to simian Virus 5 and their use in revealing antigenic differences between human, canine and simian isolates. J Gen Virol. 1987 Nov;68 (Pt 11):2769-80. [PMID:2445904](#)

Note on publication: Describes immunization of mice with purified preparations of a human isolate (LN) of simian Virus 5 (SV5) and the subsequent characterisation of the monoclonal antibodies to SV5.

Product Form

Size: 1 mg Purified antibody in bulk size.

Purification: Purified by Immobilized Metal Affinity Chromatography

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration:

See vial label

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
