

Anti-TNF alpha [cA2 (Infliximab)] Standard Size Ab00146-10.0

NOT FOR THERAPEUTIC USE - This is a research-grade biosimilar. This is a chimeric antibody created for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Human IgG1, Kappa

Clone Number: cA2 (Infliximab)

Alternative Name(s) of Target: TNF- α ; TNF α ; TNFSF; Tumor necrosis factor; Cachectin; TNF-alpha; Tumor necrosis factor ligand superfamily member 2; TNF-a; TNFa

UniProt Accession Number of Target Protein: P01375

Published Application(s): in vivo, ELISA, FC

Published Species Reactivity: Human

Immunogen: Purified recombinant human TNF (rTNF).

Specificity: Binds to soluble and transmembrane forms of TNF-alpha and neutralizes its biological activity. Does not bind to TNF-beta.

Application Notes: This antibody can be used to detect and neutralize human TNF alpha. Unlike Adalimumab (Ab00718), Infliximab does not bind to mouse TNF alpha (Arnoult 2017, PMID: 28584008).

Antibody First Published in: Knight DM, Trinh H, Le J, Siegel S, Shealy D, McDonough M, Scallon B, Moore MA, Vilcek J, Daddona P, et al. Construction and initial characterization of a mouse-human chimeric anti-TNF antibody. Mol Immunol. 1993 Nov;30(16):1443-53. [PMID:8232330](#)

Note on publication: Describes the generation of a murine monoclonal antibody (A2) and its transformation to a mouse-human chimeric antibody (Ca2).

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic

procedures for humans or animals.
