

Anti-DI/DII domain of Dengue E protein [DV18] Bulk Size Ab00246-23.0-BT

Made with Antibody Sequences licensed from Humabs Biomed SA.

This chimeric rabbit antibody was made using the variable domain sequences of the original human IgG1 format, for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Rabbit IgG, Kappa

Clone Number: DV18

Alternative Name(s) of Target: Envelope protein

UniProt Accession Number of Target Protein:

Published Application(s): NTRL, ELISA

Published Species Reactivity: Dengue Virus

Immunogen: Made by immortalizing IgG-expressing B cells Dengue Virus (DENV) patients after primary or secondary infection.

Specificity: This antibody specifically recognizes an epitope in the DI/DII domain of E protein of DENV-1, DENV-2, DENV-3 and DENV-4 serotypes. This antibody was isolated as a human IgG1 from a patient recovered from a secondary DENV-2 infection and neutralises infection.

Application Notes:

Antibody First Published in: Beltramello et al. The human immune response to Dengue Virus is dominated by highly cross-reactive antibodies endowed with neutralizing and enhancing activity. Cell Host Microbe. 2010 Sep 16;8(3):271-83. [PMID:20833378](#)

Note on publication:

Product Form

Size: 1 mg Purified antibody in bulk size.

Purification: Protein A affinity purified

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer

storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
