

Anti-ERBB2 [SAIC-02A-7] Standard Size Ab00303-23.0

Isotype and Format: Rabbit IgG, Kappa

Clone Number: SAIC-02A-7

Alternative Name(s) of Target: HER2; MLN19; NEU; NGL; Receptor tyrosine-protein kinase erbB-2

UniProt Accession Number of Target Protein: P04626

Published Application(s): immunoMRM, WB, ELISA

Published Species Reactivity: Human

Immunogen: Peptide "GLQSLPTHDPSPQLR" derived from the receptor tyrosine kinase erbB2 conjugated to KLH.

Specificity: Recognises human ERBB2.

Application Notes: Original data characterizing this antibody may be found [here](#).

Antibody First Published in: Schoenherr et al. Anti-peptide monoclonal antibodies generated for immuno-multiple reaction monitoring-mass spectrometry assays have a high probability of supporting Western blot and ELISA. Mol Cell Proteomics [PMID:25512614](#)

Note on publication: Describes generation a panel of recombinant antibodies using synthetic peptides of human proteins as well as validation using ELISA and multiple reaction monitoring-mass spectrometry.

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
