## Anti-Fatty acid-binding protein 4 (secreted) [Fab CA33] Bulk Size Ab00428-10.7-BT

This antibody is in our proprietary AbFab2™ recombinant F(ab2) format - based on Human IgG1 sequence with a short dimerization domain to improve stability and a his tag.

This chimeric human antibody was made using the variable domain sequences of the original Rabbit format, for improved compatibility with existing reagents, assays and techniques.

**Isotype and Format:** Human F(ab)2, AbFab2™ His-Tagged, Kappa

**Clone Number:** Fab CA33

**Alternative Name(s) of Target:** FABP4; Adipocyte Protein 2; aP2

**UniProt Accession Number of Target Protein:** P04117

**Published Application(s):** Blocking, crystallography

**Published Species Reactivity:** Human

**Immunogen:** This antibody was generated by immunising New Zealand White rabbits with a mixture containing recombinant human and mouse aP2 ( CAG33184.1 and CAJ18597.1, respectively).

**Specificity:** This antibody binds to both human and murine Fatty acid-binding protein.

**Application Notes:** The antibody binds to human Fatty-acid binding protein 4, which transports lipids and retinoic acids to their receptors. Administration of CA33 lowered fasting blood glucose, improved systemic glucose metabolism, increased systemic insulin sensitivity, and reduced fat mass and liver steatosis in obese mouse models.

**Antibody First Published in:** Burak et al. Development of a therapeutic monoclonal antibody that targets secreted fatty acid-binding protein aP2 to treat type 2 diabetes Science Translational Medicine 2015; 7:319ra205 [PMID:26702093](#)

**Note on publication:** Describes the generation and characterisation of this antibody.

## Product Form

**Size:** 500 µg Purified antibody in bulk size.

**Purification:** Purified by Immobilized Metal Affinity Chromatography

**Supplied In:** PBS only.

**Storage Recommendation:** Store at 4°C for up to 3 months. Note, this antibody is provided without

added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
