Anti-Human Muscle Acetylcholine Receptor [mAb 192] Bulk Size Ab00431-2.0-BT

Recombinant monoclonal antibody to Human Muscle Acetylcholine Receptor. Manufactured using AbAb’s Recombinant Platform with variable regions (i.e. specificity) from the hybridoma mAb 192.

**Isotype and Format:** Mouse IgG2a, Kappa  
**Clone Number:** mAb 192  
**Alternative Name(s) of Target:** AChR  
**UniProt Accession Number of Target Protein:** P02708 (For the alpha-subunit)  
**Published Application(s):** Blocking, WB, ELISA  
**Published Species Reactivity:** Rat, Human, Mouse  
**Immunogen:** Human muscle AChR.  
**Specificity:** The antibody binds to human muscle AChR with a Kd of 10 pM, to mouse muscle AChR with a Kd of 50 pM, and to rat muscle AChR with a Kd of 646 nM.  
**Application Notes:** This antibody binds to the human muscle Acetylcholine receptor, which is a ligand-gated ion channel, transducing an action potential into the muscle cells. The antibody binds to the main immunogenic region (MIR) and prevents ligand-binding.  
**Antibody First Published in:** Kontou et al. Characterisation, crystallisation and preliminary X-ray diffraction analysis of a Fab fragment of a rat monoclonal antibody with very high affinity for the human muscle acetylcholine receptor. FEBS Letters 1996; 389(2):195-198 PMID:8766828  
**Note on publication:** Describes the generation of a super-high-affinity rat antibody against human muscle AChR and subsequent crystallography.

**Product Form**

**Size:** 1 mg Purified antibody in bulk size.  
**Purification:** Protein A affinity purified  
**Supplied In:** PBS only.  
**Storage Recommendation:** Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommed this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.  
**Concentration:** 1 mg /ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic
procedures for humans or animals.
