

## Anti-alpha V beta 6 integrin [EM05201] Bulk Size Ab00891-23.0-BT

**Isotype and Format:** Rabbit IgG, Kappa

**Clone Number:** EM05201

**Alternative Name(s) of Target:**  $\alpha\text{v}\beta 6$ ; Vitronectin receptor subunit alpha; CD51; ITGB6; Integrin beta-6; P06756; P18564; avb6

**UniProt Accession Number of Target Protein:**

**Published Application(s):** WB, ELISA, FC, IHC

**Published Species Reactivity:** Human

**Immunogen:** This antibody was raised by immunising rabbits, isolating B cells from the immunised rabbits and fusing these with a rabbit plasmacytoma cell line (established by Spieker-Polet et al., 1995) to produce stable hybridomas

**Specificity:** This antibody is specific for the extracellular domain of human recombinant transmembrane-truncated (DTM)  $\alpha\text{v}\beta 6$  integrin, a dimeric cell surface protein that mediates cell attachment.  $\alpha\text{v}\beta 6$  integrin promotes the activation of latent TGF- $\beta$ .

**Application Notes:** This antibody has been used to specifically bind  $\alpha\text{v}\beta 6$  in Western blots and in flow cytometry, and to specifically stain  $\alpha\text{v}\beta 6$  integrins in FFPE (formalin fixed paraffin embedded)/TMA material, where murine antibodies function poorly (Goodman et al, 2012; Heß et al., 2014; Roth et al, 2013). This revealed  $\alpha\text{v}\beta 6$  to be strongly expressed in samples of invasive ductal breast adenoma, colorectal carcinoma, and NSCLC.

**Antibody First Published in:** Goodman et al. Matched rabbit monoclonal antibodies against  $\alpha\text{v}$ -series integrins reveal a novel  $\alpha\text{v}\beta 3$ -LIBS epitope, and permit routine staining of archival paraffin samples of human tumours Biol Open. 2012 Apr 15; 1(4): 329-340. [PMID:23213423](#)

**Note on publication:** Describes the generation and characterisation of this antibody.

### Product Form

**Size:** 500 µg Purified antibody in bulk size.

**Purification:** Protein A affinity purified

**Supplied In:** PBS only.

**Storage Recommendation:** Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer

storage, aliquot and store at -20°C.

**Concentration:** 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
