

Anti-IgG [GT175] Standard Size Ab01020-23.0

Developed in partnership with Ximbio (www.ximbio.com).

This chimeric rabbit antibody was made using the variable domain sequences of the original Mouse IgG1 format, for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Rabbit IgG, Kappa

Clone Number: GT175

Alternative Name(s) of Target: Goat/Sheep IgG; Immunoglobulin G; Immunoglobulin gamma; goat immunoglobulin; sheep immunoglobulin; ovine immunoglobulin

UniProt Accession Number of Target Protein:

Published Application(s): IHC

Published Species Reactivity: Goat, Sheep

Immunogen: This antibody was raised by immunizing mice against goat immunoglobulins.

Specificity: This antibody binds to goat immunoglobulin gamma.

Application Notes: GT175 can be used as a secondary antibody. It might be also utilized with techniques, such as immunohistochemistry.

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
