

## Anti-Acanthamoeba castellini [MTAC2] Standard Size Ab01179-1.1

This reformatted mouse antibody was made using the variable domain sequences of the original Mouse IgM format, for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Mouse IgG1, Kappa

**Clone Number: MTAC2** 

Alternative Name(s) of Target:

**UniProt Accession Number of Target Protein:** 

**Published Application(s): FC** 

Published Species Reactivity: A. culbertsoni, A. polyphaga, Acanthamoeba castellinii

**Immunogen:** This antibody was raised by immunising BALB/c mice with 3x10<sup>6</sup> formalin-fixed A.

castellanii trophozoites.

**Specificity:** This antibody was raised against A. castellinii but also reacts with A. polyphaga AC019 and

AC010, A. culbertsoni AC001.

**Application Notes:** This antibody reacts with intact, unfixed A. castellanii AC112 cysts in flow cytometry, but not trophozoites (Turner et al, 2005).

**Antibody First Published in:** Turner et al. Antigens of selected Acanthamoeba species detected with monoclonal antibodies Int. J. Parasitol. 35 (9), 981-990 (2005) PMID:15964573

**Note on publication:** Describes the original generation of this antibody and its characterisation in flow cytometry.

## **Product Form**

**Size:** 200 μg Purified antibody.

**Purification:** Protein A affinity purified **Supplied In:** PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -

20°C.

Concentration: 1 mg/ml.
