

Anti-HLA-DR [CAT 13.3H3] Bulk Size Ab01499-10.3-BT

This antibody was created using our proprietary Fc Silent™ engineered Fc domain containing key point mutations that abrogate binding to Fc gamma receptors.

This chimeric human antibody was made using the variable domain sequences of the original Mouse IgG2a format, for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Human IgG1, Fc Silent™, Kappa

Clone Number: CAT 13.3H3

Alternative Name(s) of Target: CD74; HLA class II histocompatibility antigen gamma chain; HLA-DR antigens-associated invariant chain; Ia antigen-associated invariant chain; Ii; p33; CAT 13.8H7; CAT13.8H7; 13.8H7

UniProt Accession Number of Target Protein: P04233

Published Application(s):

Published Species Reactivity: Human

Immunogen: This antibody was raised by immunizing mice against HLA-DR.

Specificity: The antibody CAT 13.3H3 recognizes and is directed against HLA-DR.

Application Notes: The clone CAT 13.3H3 is recommended for the identification and analysis of HLA-DR.

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 1 mg Purified antibody in bulk size.

Purification: Protein A affinity purified

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
