

Anti-SIRP alpha [SAF10.1] Bulk Size Ab01531-1.1-BT

Isotype and Format: Mouse IgG1, Kappa

Clone Number: SAF10.1

Alternative Name(s) of Target: Tyrosine-protein phosphatase non-receptor type substrate 1; SHP substrate 1; SHPS-1; Brain Ig-like molecule with tyrosine-based activation motifs; Bit; CD172 antigen-like family member A; Inhibitory receptor SHPS-1; Macrophage fusion receptor; MyD-1 antigen; Signal-regulatory protein alpha-1; Sirp-alpha-1; Signal-regulatory protein alpha-2; Sirp-alpha-2; Signal-regulatory protein alpha-3; Sirp-alpha-3; p84; CD172a

UniProt Accession Number of Target Protein: P78324

Published Application(s): binding assay, IP, WB, FC, IF

Published Species Reactivity: Human

Immunogen: This antibody was raised by immunising BALB/c mice with an eukaryotically expressed SIRP α -Fc fusion protein consisting of the extracellular domain and emulsified with complete Freund's adjuvant and followed by two subsequent boosts of SIRP α -Fc fusion protein emulsified with IFA (Lee et al., 2007).

Specificity: This antibody recognises an epitope in the membrane most distal domain (D1) of SIRP alpha. It crossreacts with other SIRPs.

Application Notes: SAF10.1, can be used to detect SIRPs in a wide variety of tissues and cell types. For instance, this antibody was successfully used to detect SIRPs from COS7.2 cell lysates via Western blot (Lee et al., 2008).

Antibody First Published in: Lee et al. Novel structural determinants on SIRP alpha that mediate binding to CD47. J Immunol. 2007 Dec 1;179(11):7741-50. [PMID:18025220](#)

Note on publication: This article describes the generation and characterisation of the SAF10.1 antibody.

Product Form

Size: 1 mg Purified antibody in bulk size.

Purification: Protein A affinity purified

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration:

1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
