

Anti-Rhesus IgG4 [2C6] Standard Size Ab01624-23.0

This chimeric rabbit antibody was made using the variable domain sequences of the original Mouse IgG1 format, for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Rabbit IgG, Kappa

Clone Number: 2C6

Alternative Name(s) of Target: rhesus immunoglobulin G4; immunoglobulin G 4; immunoglobulin; Mumu_a_Mamu_IgG4_2C6

UniProt Accession Number of Target Protein:

Published Application(s): ELISA

Published Species Reactivity: Rhesus

Immunogen: This antibody was raised by immunizing mice against a rhesus immunoglobulin.

Specificity: This antibody is specific to rhesus IgG4.

Application Notes: This antibody is recommended for the detection and analysis of rhesus IgG4. It was shown to react specifically with rhesus IgG4 via ELISA.

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
