

Anti-Rhesus Ig kappa light chain [2G11.7.3] Standard Size Ab01626-23.0

This chimeric rabbit antibody was made using the variable domain sequences of the original Mouse IgG1 format, for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Rabbit IgG, Kappa

Clone Number: 2G11.7.3

Alternative Name(s) of Target: rhesus immunoglobulin kappa light chain; immunoglobulin; light chain; kappa light chain; LC; Mumu_a_Mamu_IgG kappaLC_2G11.7.3

UniProt Accession Number of Target Protein:

Published Application(s): ELISA

Published Species Reactivity: Rhesus

Immunogen: This antibody was raised by immunizing mice against a rhesus immunoglobulin.

Specificity: This antibody is specific to rhesus immunoglobulin kappa light chain.

Application Notes: This antibody is recommended for the detection and analysis of rhesus immunoglobulins, precisely those with kappa light chains. It was shown to react specifically with rhesus Ig kappa light chain via ELISA.

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
