

Anti-Flavocytochrome B2 [B2B4] Standard Size Ab02944-23.0

This chimeric rabbit antibody was made using the variable domain sequences of the original Mouse IgG1 format for improved compatibility with existing reagents assays and techniques.

Isotype and Format: Rabbit IgG, Lambda

Clone Number: B2B4

Alternative Name(s) of Target: Cytochrome b2 mitochondrial; L-lactate dehydrogenase [Cytochrome]; L-lactate ferricytochrome C oxidoreductase; L-LCR

UniProt Accession Number of Target Protein: P00175

Published Application(s): ELISA

Published Species Reactivity: Saccharomyces cerevisiae

Immunogen: The original antibody was generated by immunizing BALB/c mice with fully purified Flb.

Specificity: The antibody recognized a conformational epitope on the Heme-binding domain of Flb2 (residues 1-99). Specifically, the epitope consists of Asn30, residues 63 to 65 (GluPro-Leu) and 67 to 70 (Ala-Pro-Asn-Val), Asp72, Tyr74, and the two heme propionate groups.

Application Notes: ELISA indicated that the antibody, either the IgG or the Fab fragment, was able to recognize the heme-binding domain of flavocytochrome b2. (PMID: 8674650) For the Fab fragment, Kd values of 80 nM and 30 nM were determined in ELISA competition experiments and fluorescence quenching titrations, respectively. (PMID: 9521665)

Antibody First Published in: Lé et al. Functional uncoupling between flavin and heme domains in flavocytochrome b2 by a monoclonal antibody. Biochem Soc Trans. 1996 Feb;24(1):16S. [PMID:8674650](#)

Note on publication: The paper describe the generation of the antibody B2B4, which inhibits the enzymatic activity of flavocytochrome b2. Further studies were carried out using either the purified divalent IgG1 or the monovalent Fab fragment of the antibody.

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration:

1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
