

Anti-PD-1 [11F5C5] Standard Size Ab03146-2.3

This antibody was created using our proprietary Fc Silent™ engineered Fc domain containing key point mutations that abrogate binding to Fc gamma receptors.

Isotype and Format: Mouse IgG2a, [Fc Silent™](#), Kappa

Clone Number: 11F5C5

Alternative Name(s) of Target: CD279; PD1; PD 1; hPD-1; PDCD1; Programmed cell death protein 1; Programmed cell death 1; Protein PD-1; CGMCC NO.16209; NAT105

UniProt Accession Number of Target Protein: Q15116

Published Application(s): WB, ELISA, IHC

Published Species Reactivity: Human

Immunogen: The original antibody was generated by immunizing BALB/c mice with recombinant human PD-1 protein comprising amino acids 32-160.

Specificity: This antibody binds the extracellular domain of the human PD-1. PD-1 is an immunosuppressive receptor having a molecular weight of 50 to 55 kD, a type 1 transmembrane glycoprotein belonging to immunoglobulin CD28 / CTLA-4 family members. It is an inhibitory receptor on antigen activated T-cells that plays a critical role in induction and maintenance of immune tolerance to self. It delivers inhibitory signals upon binding to ligands CD274/PDCD1L1 and CD273/PDCD1LG2.

Application Notes: This antibody is highly similar to the commercially available anti-PD-1 antibody NAT105. The binding specificity of this antibody towards human PD-1 was determined using ELISA. The original IgG2a antibody binds human PD_1 with an affinity constant of $7.13 \times 10^9 \text{ M}^{-1}$. This antibody is capable of detecting human PD-1 in a western blot assay. This antibody was used in the immunohistochemical staining of samples of T cell lymphomas and B cell lymphomas (CN109293775).

Note on publication:

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration:

1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
